EXPERIENCE

Ohio University Game Research and Immersive Design (GRID) Lab Athens, OH	2023 – 2025
<i>Motion Capture Specialist, OptiTrack</i>	
- Created tutorials and taught students how to use the capture software - Resolved system errors and gained troubleshooting skills - Performed as a motion capture actor for various projects	
Ohio University Housing and Residence Life Athens, OH	2022 – 2025
<i>Resident Assistant: Convocation Center Residence and James Hall</i>	
- Assisted residents with addressing health, social, and academic concerns - Oversaw groups of 20-30 students; has worked with athletes, ROTC, and international students - Organized community meetings, events, and bulletin boards for residents	

PROJECTS

Band Brawl	2025
- Designed and produced a Unity2D arcade game with a team of three other developers - Programmed scoring and save systems that uphold the game's competitive and social nature - Learned how to use GitHub and resolve merge conflicts	
Wonder Gardens	2025
- Conceptualized an interactive experience about picking flowers with certain meanings - Designed the experience's puzzles, goals, and intended outcomes for the participants - Mapped out and programmed a personality test using Twine	
Trolley Problem VR	2024
- Planned, designed, and developed a Unity OpenXR experience with a team of three other developers - Implemented spatial audio system that randomizes audio clips at different points in space - Led voice acting sessions that improved the experience's stress-inducing immersion
